

Mr. James Sonn, manager of the Pioneer Drug Store in this place visited the scene of the tornado at Fort Atkinson, last Tuesday, and reports terrible destruction of property. The hotel which his wife's parents run, was racked sufficient to crack the plastering badly. He reports several buildings literally torn into small kindlings, tin roofing lying around rolled up in roll like paper, shade trees torn out by the roots and split into small firewood. The beautiful residence, barn and iron fence, belonging to Mr. Nick Broughton, a former resident of this place were badly damaged. The house of Mr. Hollabush who has relatives in this place, was completely destroyed, and his wife carried a long distance into a corn field and considerably hurt. Mr. Hollabush and one of his children being slightly injured also. An account of other destruction by the hurricane will be found elsewhere in this paper, as copied from the *Janesville Daily Gazette*.

Biology students find the subject most interesting when such things as live frogs and rats are brought in for experimental purposes. A large frog cage constructed by the Grange store was used to keep the amphibians in their place.
